SHAILESH MORI

Ahmedabad | 8401753537 | morishailesh982@gmail.com | LinkedIn

Professional Summary

Software Developer with 3.6 years of experience engineering high-performance e-commerce applications, custom backend architectures, and fintech solutions. Proficient in Node.js, Express, React, Prisma ORM, PostgreSQL, Redis, and low-level system design. Experienced in leveraging AI-driven workflows and modern DevOps to build and deploy production-ready applications on VPS and cloud environments.

Core Competencies

Category	Technologies & Skills
Frontend & Frameworks	JavaScript, React, React-Router, Redux Toolkit, Custom UI Components, HTML5, CSS3
Backend & Databases	Node.js, Express, Prisma ORM, PostgreSQL, Redis, Queues, REST & GraphQL APIs
Shopify Development	Theme Customization, Custom Apps, Checkout UI Extensions, Shopify Functions API, GraphQL Admin API, Customer Account UI Extensions, Order Status Extensions, Shopify Proxy, Webhooks
DevOps & System Architecture	VPS Management, Heroku, Render, Automated Workflows, Low-Level System Design, GDPR Compliance

Work Experience

Rupiya Finnovations Pvt Ltd — Jr. Software Engineer

Dec 2022 – Jul 2024 | Ahmedabad (1 Year 6 Months)

- Engineered and maintained robust web application interfaces using React and modern component architecture.
- Implemented centralized state management via Redux Toolkit to establish predictable data flow across complex application states.
- Integrated core fintech payment modules, secure transaction flows, and third-party infrastructure including Razorpay.
- Developed multi-vertical booking services supporting seamless real-time reservations for travel and utility payment modules.
- Optimized application performance by diagnosing API bottlenecks and refining query execution paths.

CreatPix InfoTech — Jr. Software Engineer

Nov 2024 – Present | Ahmedabad (1 Year 10 Months)

- Designed and deployed custom Shopify solutions, client extensions, and high-concurrency app backend logic.
- Provided technical consulting on Shopify API implementations, custom integrations, and system scalability.

Featured Projects

Dynamic-Form App (Shopify Backend App)

- Engineered an authentication pipeline managing Shopify OAuth flows alongside Prisma ORM and PostgreSQL storage.
- Designed a dynamic schema supporting custom field namespace keys to eliminate redundant field creation across multi-step forms.
- Built an interactive drag-and-drop admin builder using React with live storefront preview functionality.
- Established secure frontend-to-backend communication over Shopify App Proxies and Shopify GraphQL Admin APIs.
- Implemented strict GDPR data deletion compliance pipelines to satisfy enterprise privacy mandates.

Ultimate Autograph (Shopify Admin Backend App)

- Designed a tailored database schema featuring an auto-replenishment engine for handling

variant inventory logic.
- Implemented asynchronous order processing queues using Redis webhooks and integrated dynamic notification engines.
- Constructed winner management dashboards and series management automated pause/stop triggers bound to real-time inventory counts.
- Developed reporting capabilities filterable by dates and products with CSV exporting functionality.

Maple & Mash Referral Platform

- Architected an end-to-end full-stack affiliate marketing platform with embedded storefront app extensions.
- Built a multi-state administrative dashboard to moderate user onboarding, approval queues, and automated email workflows.
- Integrated Stripe Billing API and webhook listeners to automate tiered subscription checkouts and account metadata provisioning.
- Engineered a rule-based dynamic commission Engine mapped to customer referral cookies and Shopify order webhooks.
- Enforced strict GDPR soft-delete capabilities to preserve historical ledger integrity while satisfying compliance demands.

Additional Shopify Projects

- **Gifting Studio**
- **PixMagic Backend App**
- **Gallery Wall Backend App**

Education

Shantilal Shah Engineering College

Bachelor of Engineering | Graduated Jul 2016 | Bhavnagar
